Industrial Painter Job Posting

Job Title: Industrial Painter

Location: Zanesville, Ohio

Job Type: Full-time

About Us:

We are AJ Enterprise, a leading facility in industry and commercial steel fabrication and installation. Dedicated to delivering high-quality finishes and protective coatings is as crucial as the fabrication itself. We pride ourselves on safety, craftsmanship, and delivering consistent results.

Position Summary:

We are seeking an entry level or experienced Industrial Painter to join our team. In this role, you will be responsible for preparing industrial surfaces and applying protective coatings to extend the service life of metal. You'll work in varied conditions, including heights, confined spaces, and outdoors, and you must uphold all safety and quality standards.

Key Responsibilities:

- Prepare surfaces by cleaning, blasting, sanding, degreasing, and removing old coatings as required.

- Apply industrial coatings using spray guns, rollers, and brushes.

- Mix and apply coatings according to manufacturer's spec and job requirements.

- Perform inspection and quality control to ensure coatings meet thickness and finish standards.

- Operate and maintain painting and blasting equipment safely and efficiently.

- Follow safety protocols including use of PPE, fall protection, confined space entry, and safe handling of hazardous materials.

- Maintain a clean and organized work area and report equipment malfunctions or job issues.

Minimum Requirements:

- High school diploma or GED (preferred).

- Vocational training, apprenticeship or significant experience in industrial painting/coatings.

- Relevant safety certifications (OSHA, SSPC/AMPP coatings applicator preferred).

- Proven experience in surface preparation and industrial coating application.(preferred)

- Ability to work in variable conditions.

- Strong attention to detail and quality workmanship.

- Reliable, punctual, safety-oriented, capable of working with a team.

What We Offer:

- Competitive pay and benefits.

- Opportunity to work on a variety of challenging industrial projects.

- Training and professional development in advanced coating technologies.

How to Apply:

Interested candidates please submit your resume, list of certifications, and a brief cover letter describing relevant industrial painting experience to : inquires@ajenterprise.net
