"Where Innovation & Excellence Meet"

## COMPANY OVERVIEW

Established in 2019 located in Zanesville, Ohio; AJE is a departmentalized company offering specialty metal fabrication, machining, and mobile capabilities. Built on the ethos of the industries best due diligence with the belief in never overpromising and underperforming. AJE can carry your project through all stages, from prototype to functioning field installation. With vast experience in small to large fabrication as well as manufacturing jobs. AJ Enterprise has the aptitude to satisfy the needs of both commercial and private entities.

## BUSINESS DATA

- ✓ Service-Disabled Veteran Owned Small Business
- ✓ Small Business Association
- ✓ Veteran Owned and Operated
- ✓ AWS Structural Welding

## PAST PERFORMANCES

### Samuel Packaging Systems Group

- OSHA Safety & Compliance, Custom platform and handrail design, fabrication and installation, Emergency call out, Threaded and welded mechanical pipe installation, and more.

"We are proud to say AJE has decreased safety incidents by eighteen percent and we have received a return value of roughly one million dollars for Samuels Heath location"  
- Vince Morrison, Production Manager

### Connect Construction

- Custom metal fabrication, structural steel erection, and Iterative design engineering

Most recently AJE designed and fabricated custom archways that replicated historical bridges. These arches have become the focal point of their restaurant.
